Making Your Files Work for You

- 6) Right Click on Desktop & Create New Folder
- 7) In Zipfile select all files by using the ctrl+A command
- 8) Drag & Drop Files into New Folder on Desktop

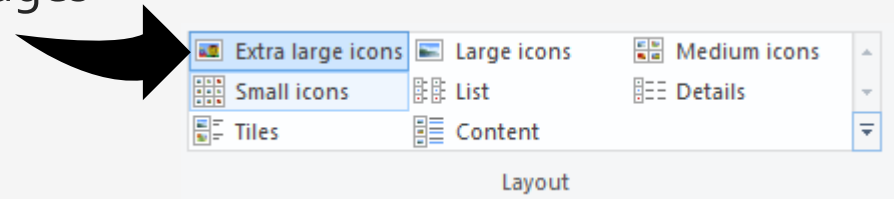

Making Your Files Work for You, Continued

9) In Your New Folder, Change the View

10) Use the View "Extra Large Icons" for the Best View of Images

11) *Pro Tip* In this new folder you can organize your images by adding additional folders. For Example, adding a Lifestyle Image folder or a Branding Image folder will help keep all your assets organized.
